# Christopher James Olcheski

## Objective

---

To continue my career as a software developer and utilize my six years of programming experience while continuing to develop and grow my skill set.

## Work Experience

---

### **Senior Developer** – United States Postal Service - Wilkes-Barre, Pennsylvania – February 2016 - Present

- Developed and maintained an administration tool for the customer registration team at USPS
- Automated jobs handling USPS administrative services in Java.
- Created web tools and projects in Java, HTML, Javascript, JQuery, and Bootstrap.
- Trained and onboarded new developers.
- Engaged in agile development workflow with daily scrums and use of Version One.
- Participated in multiple training programs including Python, Google Cloud and Kubernetes, Apache Kafka, Bootstrap and Responsive Design.
- Promoted to mid-level developer in first year, senior in fifth year.

### **Production Coordinator** – TMG Health – Jessup, Pennsylvania – June 2015 – February 2016

- Responsible for automation of claims processing and multiple other processes utilizing SQL and AutoHotkey programs as well as automating reports with Automation Anywhere.

## Education

---

### **Bachelor of Science In Information Sciences and Technology**– Penn State University

- Graduated December 2015

### **Associate's Degree in Computer Information Systems** – Luzerne County Community College

- Graduated May 2013
